Sliding door with centre lock

The X-Guard sliding door with center lock is a practical safety solution for industrial environments with limited space. Each half of the door slides in opposite directions, providing a wide, central access point. With a max width of 5900 mm, it meets the Machinery Directive 2006/42/EC.

The X-Guard sliding door with center lock is an efficient and space-saving safety solution for industrial environments. Designed for areas where a centrally positioned door is required, each half of the door slides in opposite directions, creating a wide and accessible entry point. With a maximum width of 5900 mm, it provides flexible access while ensuring compliance with the Machinery Directive 2006/42/EC.

Its simple yet robust design allows for easy installation, making it a reliable choice for workplaces needing a secure and practical safety solution. The door can be customized with various lock options to suit different safety requirements.

Ideal for production areas and confined spaces, the X-Guard sliding door with center lock improves workflow efficiency while maintaining high safety standards.

Note: The maximum width may vary depending on the locking solution. Posts, handles, and panels are not included in the door package.
